

Alwafa Mohamed Ahmed Ashour

Data analyst

www.linkedin.com/in/wafa-ashour | +2 01015912870 | Cairo, | Egypt

SUMMARY

Entry-Level Data Analyst skilled in Python, SQL, Excel, and Power BI with hands-on experience in data cleaning, data wrangling, statistical analysis, and dashboard development. Experienced in building interactive reports, tracking KPIs, and generating business intelligence insights from real-world datasets using Pandas, NumPy, and Matplotlib.

TECHNICAL SKILLS

Programming: Python, SQL

Analysis: Data Cleaning, Data Wrangling, Statistical Analysis

Visualization: Power BI, Tableau, Excel, KPI Dashboards

Libraries: Pandas, NumPy, Matplotlib

Techniques: Data Mining, ETL, Reporting, Business Intelligence

Tools: SPSS, Orange

PROJECTS

- Analyzed structured business and financial datasets to extract actionable insights and support decision-making.
- Cleaned and analyzed datasets of +10,000 records using Python and SQL, preprocessing, and transformation using Python, SQL, and Excel.
- Applied statistical analysis and data mining techniques
- to identify trends, patterns, and relationships.
- Built interactive Power BI dashboards to track KPIs and trends dashboards and reports using Power BI and Tableau to visualize KPIs and analytical results.
- Interpreted analytical outputs and communicated findings through clear documentation and presentations.

Additional Training:

- Google Data Analytics Professional Certificate – Coursera
- Data Cleaning & Analysis using Excel, SQL, and Python
- Data Visualization and Reporting
- Data-driven decision making foundations

EXPERIENCE

Data Analyst Intern

Digilians Initiative

2025

- Analyzed real-world datasets using Python, SQL, and Excel.
- Built Power BI dashboards to track KPIs.
- Applied data cleaning and preprocessing techniques.

- Performed statistical analysis and data mining.

EDUCATION

Faculty of Archaeology, Egyptology - South Valley University

Relevant Coursework : Data Analysis, Business Intelligence, Statistics, Information Systems

- Google Data Analytics Professional Certificate – Coursera
- Data Cleaning & Preparation
- Data Analysis using Excel, SQL, and Python
- Data Visualization with dashboards and reports
- Foundations of data-driven decision making

LANGUAGE

- Arabic: Native/Bilingual.
- English: Good.
- German: Acceptable.
